

Copyright form for conference/workshop papers

This agreement concerns the copyright of your paper presented at a conference or workshop that is technically co-sponsored by the European Signal Processing Conference (EUSIPCO). In order for EURASIP to disseminate your paper, you are kindly asked to sign this consent form.

My consent

I give consent to EURASIP to use the camera-ready version of my conference or workshop paper, referred to in this agreement as “my contributions”, for the purposes of learning, teaching, research and/or promotion, and to disseminate my contributions in various channels and forms.

Publication

I understand that EURASIP has the right to publish all or part of my contributions but does not have the obligation to do so. I agree not to impede EURASIP in its use of these contributions.

Use of the material

I grant to EURASIP a **non-exclusive, royalty-free license** to use my contributions for archiving and dissemination purposes within and outside EURASIP through physical and digital publications and distribution media including, but not limited to, the EURASIP website, and also including distribution media not yet invented at the time of signing this consent form.

Legality and freedom

I undertake that my contributions will not contain any defamatory or illegal content, within the context of accepted academic freedom.

My rights

- I have the right to request to see a copy of the information EURASIP holds about me and to request corrections or deletions of the information that is no longer required.
- I can ask EURASIP to stop using my contributions at any time, in which case it will not be used in future publications but may continue to appear in publications already in circulation.

The rights of others

- Where my contributions contain material in which copyright or other intellectual property rights are owned by others, I understand that I must obtain permissions or license to reuse and disseminate this material.
- I confirm that where my contributions use material funded by a third party (e.g., a research council or commercial entity), the third party's terms and conditions allow me to grant the non-exclusive, royalty-free license described earlier.
